FOR IMMEDIATE RELEASE

Ready Mix Inc. Opens New Plant in Southwest Phoenix

PHOENIX, ARIZONA, September 14, 2006 . . . **READY MIX, INC. (RMI) (AMEX:RMX)** announced today the opening of a new ready-mix concrete batch plant site in Southwest Phoenix, Arizona. The Tolleson Plant becomes the third RMI plant operating in the Phoenix area and is the third plant to be completed out of four new plants planned by the Company following its IPO in August of 2005.

"Our new Tolleson Plant allows RMI to serve existing and new customers located in areas too distant to be served from our other Phoenix-area plants. This new plant also is ideally located near the proposed new alignment of the southwest Loop 202 freeway, with good access to some of the area's most active real estate development," said Bob DeRuiter, Vice President of RMI. "With 174 mixer trucks now in our fleet, and delivery pending on an additional 10 trucks, we have the delivery capability we need to handle our increased production capacity."

The land and aggregate production facilities for the Tolleson plant are owned and operated by the Salt River Materials Group. Locally-owned Salt River Materials Group is a major supplier of aggregates in the metropolitan Phoenix area, manufactures Portland and blended cements at its 1.2 million tons-per-year plant in Clarkdale, Arizona, and is the largest supplier of fly ash and other recycled coal combustion products in Arizona and New Mexico.

About Ready Mix, Inc.

Ready Mix, Inc. (RMI) has provided ready-mix concrete products to the construction industry since 1997. RMI currently operates three ready-mix concrete plants in the metropolitan Phoenix area, three plants in the metropolitan Las Vegas area, and one plant in Moapa, Nevada. The Company also operates two sand and gravel crushing and screening facilities in Clark County, Nevada and one in northwest Arizona, which provides raw materials for its Las Vegas and Moapa concrete plants as well as decorative rock. In Phoenix and Las Vegas, RMI deploys a fleet of 174 mixer trucks to deliver its ready-mix concrete to customer job sites.

Forward-Looking Statements

The statements in this press release that are forward looking are based on current expectations and actual results or future events may differ materially. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results of the Company or future events to differ materially from those expressed in or underlying such forward-looking statements, including without limitation: national and local economic, business, real estate and other market conditions; the competitive environment in which the Company operates; the execution of the Company's business plan; financing risks; acquisition and location development risks; potential environmental and other liabilities; and other factors affecting the construction industry generally. For further discussion of the factors that could affect outcomes, please refer to the "Risk Factors" section of the Company's annual report on Form 10-K for the year ended December 31, 2005 and its subsequently filed quarterly reports on Form-Q.
